Vicki, with the credibility of the Redding campaign on the line, please provide proof that the Board of Supervisors allocated \$2M county general fund to Adventist Health.

Ted Williams Ted! were you not at the meeting that I posted a clip of? If anything's on the line it's your reputation I'll be happy to provide the video on instant message. I have published it several times you were sitting right there when the caller called in and you know that it was allocated.

**Ted Williams**  
Vicki, meeting date and item number where a board motion approved \$2M general fund to Adventist Health?

Like Reply 2h

**Vicki Williams**  
Ted Williams John Redding Will you please answer Ted!'s question publicly since you are the treasurer of the hospital board.

Like Reply 2h

**Vicki Williams**  
Ted Williams yes sir!

Like Reply 2h

**Vicki Williams**  
Ted Williams Will be right on that and don't worry proof of work exist so don't scrub it like you did your Facebook post because we never hit anywhere near 10% Covid numbers like you predicted.

**Vicki Williams**  
Ted Williams AVA says you allocated almost 46 million to Cal Fire on consent calendar? You avoided the 10 questions and still are? This is not looking good we're at almost \$50 million worth of unbelievable irresponsible spending.

Like Reply 1h Edited

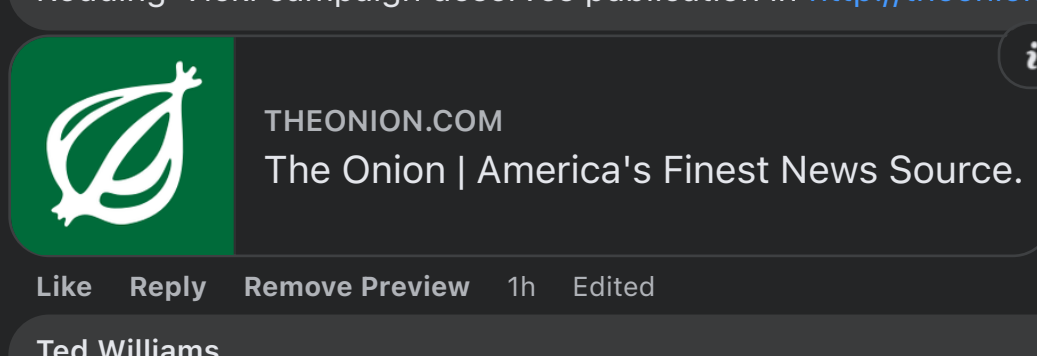

**Ted Williams**  
Vicki, not accurate. Prove it. Show us \$50M of spending.

Like Reply 1h Edited

**Vicki Williams**  
Why don't you answer the AVA questions if you don't have anything to hide Ted!?

Like Reply 1h

**Ted Williams**  
Vicki, show us the \$50M of funding votes, including the \$2M general fund allocation to Adventist Health. It's my impression Redding's campaign is sharing fiction. This is your opportunity to prove your case. Otherwise, the Redding-Vicki campaign deserves publication in <http://theonion.com>

Ted Williams "As expected, the Supervisors blindly approved the retroactive \$4.2 million five-year Calfire dispatch contract on the consent calendar without a word of discussion about savings that might result from the dispatch consolidation they committed to a couple of years ago, or the amount of the contract or the reason it's nine months late." Seems your campaign might be lacking some credibility.

**Ted Williams**  
John, show us the \$50M of cited spending and the \$2M county general fund to Adventist Health?

Like Reply 1h

**John Redding**  
Ted Williams With the credibility of your campaign on the line, why won't you answer the 10 questions asked of you? I answered all of them, your turn. May I point out you are not using correct financial terms. Public agencies have a General Fund but corporations do not. They have an operating budget.

John Redding show us the \$50M of cited spending and the \$2M county general fund to Adventist Health?

Like Reply 1h

**John Redding**  
Vicki Williams The president of the Adventist hospital in Fort Bragg gave a report to my Board (~1 year ago?) that the Blue Zone Project received a grant from the County of Mendocino in the amount of \$2million.

Like Reply 1h

**John Redding**  
Ted Williams Are you trying to say it's not correct that the BOS approved a \$50M contract via the consent calendar because it was actually \$46m?

Like Reply 1h

**Ted Williams**  
Blue zone presentation never went to BOS. Adventist Health will not back your claim. Total fiction. Prove me wrong.

Like Reply 1h

**Ted Williams**  
John, we have not approved \$46M. You've got to do some basic research. I won't dispute every single claim, but you have a long series of misinformation flowing. It's embarrassing.

Like Reply 1h

**John Redding**  
Ted Williams So the reporting is inaccurate?

Like Reply 55m

**John Redding**  
Ted Williams lol What's embarrassing is your sense of entitlement to the District 5 seat. When people ask you questions about your record and your agenda for the next four years, your reply is that this election is not about me but about Redding being a White Supremacist. Talk about embarrassing!

Like Reply 53m

**John Redding**  
Ted Williams lol. What do you mean by "presentation?" Are you suggesting you know nothing about the Blue Zone project in Mendocino?

Like Reply 48m

**Ted Williams**  
John, I'm suggesting both your \$2M blue zone claim and \$50M of spending claim are fake news. This is your chance to prove your claims. Show us the meeting date where these expenditures were approved?

**Ted Williams**  
Vicki, show us the evidence of \$50M spending and \$2M AH or it's simply fiction. Our minutes, meeting videos and agendas are all public. If there is any merit you should be able to cite evidence. It appears your candidate is running away from the question.

Like Reply 39m

**Vicki Williams**  
Just because the public records aren't put on this thread does not make it fiction and you know that requesting a public record takes time and believe me I've done more than you can imagine recently.

Like Reply 31m

**Ted Williams**  
Vicki, you and Redding have not proved your claims. If there was any merit, it would take seconds to cite the action. You can't, because it's not real.

Like Reply 29m

**Ted Williams**  
Vicki, our public records are on the website. No request necessary.

Like Reply 27m

**John Redding**  
Ted Williams I will stand corrected on the Blue Zone information. Several of my Board colleagues recall Judy Leach making that statement at our Board meeting. However, she just now emailed me, thanks to your quick work, that AH did not receive a grant. I apologize for the error.

Like Reply 21m Edited

**John Redding**  
Ted Williams What has not been proven is why you should be re-elected as opposed to being ordained for another four years. Can we engage on matters of interest to everyone in Mendocino County? or will you base you campaign on denigrating your opponent who has an excellent track record?

Like Reply 18m

**Ted Williams**  
John Redding I appreciate the retraction about AH/Blue Zones. Would you also retract the \$50M (or \$46M or any amount similar)? This is also not truthful.

Like Reply 14m

**John Redding**  
Ted Williams Again, is the AVA reporting incorrect? And a footnote for those following this thread -- Judy Leach of AH did write "let me be very clear that to date there has not been any financial transactions between our organizations regarding this project." What does "to date" imply?

Like Reply 8m

**Vicki Williams**  
Ted Williams thank you.

Like Reply 8m

**Ted Williams**  
John, it means the county has not paid AH or Blue Zones. Anyone watching county meetings would also know there has not been discussion of this topic.

**Heather Meyer**  
I'd like to know what exactly they were doing with the money for climate change and the hospital besides lining people's pockets who do very little to affect positive change. There are charts available on county website that show budget allocations but they have vague titles and descriptions;as they do not describe every single allocation and to whom. Transparency is good. Receipts please!

Like Reply 2h Edited

**Vicki Williams**  
Heather Meyer yes, who the hell do you write a check for climate change because planet 🌍 doesn't take money as far as I'm concerned. Hence forth, if the sea levels are rising so quickly then why the hell did all the people involved in green energy BUY ocean front property in the last two years? It's getting so ridiculous out that it's time to point out the obvious because people just can't see it unless you say it out loud.

Like Reply 2h Edited

**Ted Williams**  
Heather, what money for hospital? Link to minutes or agenda item?

**John Redding**  
Well, it's been fun, TedWilliams. I will re-engage later. I have some serious hospital stuff to work on, including seizing off your attempt to take over the healthcare district via dissolution, seizing its cash assets, its property and the revenue from the property and parcel taxes. Turn that over to the BOS without even a public vote. Very undemocratic and unwise.
